

RAHUL KUMAR

JAVA FULL STACK DEVELOPER

+91-7050185954 rahulkr705018@gmail.com LinkedIn GitHub </> CodeChef

PROFESSIONAL SUMMARY

Java Full Stack Developer with 2+ years at Accenture delivering enterprise web applications across the full SDLC. Builds RESTful services with Java, Spring Boot, and Hibernate and responsive interfaces with React.js, TypeScript, and Redux. Experienced in microservices-oriented design, relational data modelling, Azure production support, and Agile delivery.

TECHNICAL SKILLS

Languages	Java 8/11, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Backend	Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, REST APIs, Microservices, JWT, Swagger/OpenAPI, Multithreading, Collections, Exception Handling
Frontend	React.js, Redux, React Hooks, Next.js, Bootstrap, SCSS, jQuery, Responsive Design
Databases	MySQL, PostgreSQL, MongoDB, JDBC, Query Optimization
Cloud & DevOps	Microsoft Azure, Azure Monitor, Application Insights, Docker, Jenkins, CI/CD, Maven, Apache Tomcat
Testing & Tools	JUnit, Mockito, Postman, IntelliJ IDEA, Eclipse, VS Code, Git, GitHub, JIRA
Practices	Agile/Scrum, OOP, SOLID, Design Patterns, Data Structures & Algorithms, Code Reviews

PROFESSIONAL EXPERIENCE

Associate Software Engineer, Accenture	April 2024 - Present
Microsoft Business Solutions (MBS) - L3 Production Support	June 2025 - Present
- Delivered Level 3 production support for the client's MBS platform on Microsoft Azure, resolving 50+ incidents per month within agreed SLAs. - Monitored scheduled jobs, APIs, and application health with Azure Monitor and Application Insights, performing root-cause analysis on recurring failures.	
Merck Group - Healthcare HRMS Platform	July 2024 - June 2025
- Contributed to an enterprise Healthcare HRMS platform managing workforce planning, resource allocation, and employee operations. - Developed features for the Resource Management module - staff allocation, scheduling, and utilization tracking - end to end across API and UI layers. - Built and consumed Spring Boot REST APIs with Spring Data JPA and Hibernate for persistence, including request validation and error handling. - Translated Figma designs into responsive React.js and Redux interfaces aligned with the application's design system.	
Microsoft Azure - Application Debugging and Code Quality	April 2024 - June 2024
- Debugged React.js modules in the Azure portal ecosystem, isolating functional anomalies and performance bottlenecks across enterprise modules. - Reviewed JavaScript (ES6+), TypeScript, and REST API code against code-quality standards and closed 80+ defect tickets.	
Subject Matter Expert, Chegg India Pvt. Ltd.	March 2022 - October 2022
Authored 1000+ detailed solutions across Data Structures and Algorithms, OOP, DBMS, Operating Systems, and web development.	

PROJECTS

College Social Media Website Next.js, Node.js, MongoDB, Redux	July 2023
Built a social platform for students to share experiences and join discussions, with authentication, posts, comments, and profiles. Live at campus-connect-five.vercel.app.	
E-Commerce Website MERN Stack	March 2021
Developed a full-stack store with React.js and Node.js, offline data persistence, multi-provider authentication, and Redux cart and order state. Live at e-commerce-2023-umber.vercel.app.	

EDUCATION

B.Tech, Computer Science and Engineering - Bhagalpur College of Engineering (75.74%)	2023
Senior Secondary (BSEB) - Bhagalpur City College, Bhagalpur (69.4%)	2018

ACHIEVEMENTS

- Global Rank 40 in CodeChef Starters 17C contest (November 2021).
- Secured 93.4 percentile in JEE Mains among 900,000+ candidates (April 2019).
