

RAHUL KUMAR

Senior Java Full Stack Developer

+91-7050185954 | rahulkr705018@gmail.com | [LinkedIn](#) | [GitHub](#) | [CodeChef](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with 2+ years at Accenture designing, building, and supporting enterprise-grade web applications across the full SDLC. Strong hands-on expertise in Java, Spring Boot, Spring Data JPA, Hibernate, and RESTful microservices, paired with modern frontend development using React.js, TypeScript, Redux, and the MERN stack. Proven record delivering production code, resolving high-priority incidents on Microsoft Azure, and translating designs into scalable interfaces. Seeking to bring deep Java backend expertise and full-stack versatility to a Senior Software Engineer role.

TECHNICAL SKILLS

Languages: Java 8/11, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Backend: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, REST APIs, Microservices, JWT, Swagger/OpenAPI, Multithreading, Exception Handling

Frontend: React.js, Redux, React Hooks, Next.js, Node.js, Express.js, Bootstrap, SCSS, jQuery, Responsive Design

Databases: MySQL, PostgreSQL, MongoDB, JDBC, Query Optimization, Data Modelling

Cloud & DevOps: Microsoft Azure, Azure Monitor, Application Insights, Docker, Jenkins, CI/CD, Maven, Apache Tomcat

Testing & Tools: JUnit, Mockito, Postman, IntelliJ IDEA, Git, GitHub, JIRA

Practices: Agile/Scrum, OOP, SOLID, Design Patterns, DSA, System Design, Code Reviews, Production Support

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Accenture

April 2024 – Present

Full Stack Developer — Vodafone Project

August 2026 – Present

- Working as a full stack developer on the Vodafone engagement, building and maintaining features across the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designing and implementing RESTful APIs with Node.js and Express.js, including request validation, authentication, and error handling.
- Building responsive, reusable React.js components and managing application state and MongoDB data models to deliver a consistent user experience.

Java Backend Development — Microsoft Business Solutions (MBS)

April 2024 – August 2026

- Delivered backend enhancements and bug fixes for the client's MBS platform using Java, Spring Boot, and REST APIs, deployed on Microsoft Azure.
- Wrote and maintained production-grade Java code for scheduled jobs and API integrations, resolving 50+ incidents per month within agreed SLAs.
- Monitored application health with Azure Monitor and Application Insights, performing root-cause analysis and implementing permanent code-level fixes.

Merck Group — Healthcare HRMS Platform

July 2024 – June 2025

- Developed features for the Resource Management module — staff allocation, scheduling, and utilization tracking — end to end across API and UI layers.
- Built and consumed Spring Boot REST APIs with Spring Data JPA and Hibernate for persistence, including request validation and error handling.
- Translated Figma designs into responsive React.js and Redux interfaces aligned with the application's design system.

Microsoft Azure — Application Debugging and Code Quality

April 2024 – June 2024

- Debugged React.js modules in the Azure portal ecosystem, isolating functional anomalies and performance bottlenecks across enterprise modules.
- Reviewed JavaScript (ES6+), TypeScript, and REST API code against code-quality standards and closed 80+ defect tickets.

Subject Matter Expert | Chegg India Pvt. Ltd.

March 2022 – October 2022

- Authored 1000+ detailed solutions across Data Structures and Algorithms, OOP, DBMS, Operating Systems, and web development.

PROJECTS

College Social Media Website | Next.js, Node.js, MongoDB, Redux

July 2023

- Built a social platform for students to share experiences and join discussions, with authentication, posts, comments, and profiles. Live at connect-five.vercel.app.

E-Commerce Website | MERN Stack

March 2021

- Developed a full-stack store with React.js and Node.js, offline data persistence, multi-provider authentication, and Redux cart and order state. Live at e-commerce-2023-umber.vercel.app.

EDUCATION

B.Tech, Computer Science and Engineering — Bhagalpur College of Engineering (75.74%), 2023

Senior Secondary (BSEB) — Bhagalpur City College, Bhagalpur (69.4%), 2018

ACHIEVEMENTS

- Global Rank 40 in CodeChef Starters 17C contest (November 2021).
- Secured 93.4 percentile in JEE Mains among 900,000+ candidates (April 2019).
